

January 2015

Headteacher: Christopher Anders BA (Hons) MA

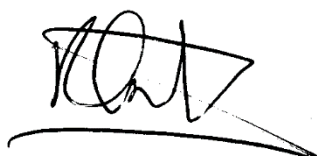

Dear Parent/Carer

We have had a large increase in the number of students requesting Paracetamol. Following our medicine management policy we can only administer Paracetamol as a one off medication for use in such situations as a headache, providing we gain parental consent. This can only be administered after 12.00 noon. Further treatment with Paracetamol or other medications requires a doctor's prescription. The medication needs to be brought in clearly labelled with the child's name and instruction for use.

The School Nurse is in the process of updating the health records of those students receiving Asthma treatment from the doctor. Please ensure that the school is up to date with any current condition or treatment that your child may have. If your child is being treated by the doctor for Asthma, please ensure at all times they have a blue reliever inhaler in their bag. We would recommend also to have a spare inhaler in school in the Medical Room. This needs to be clearly labelled with your child's name.

The school Medical Room does not replace your GP surgery, so if your child has an ongoing illness/ailment please make a GP appointment. If your child has vomited on the morning of attending school, please do not send them in for 24 hours after the last bout of sickness.

Yours faithfully

Robert Carter
Deputy Headteacher
